Chairman's Speech

Striving for a New Pattern of High Quality Development of Lithium Battery Materials in China

The year of 2020 is an extraordinary year and a fruitful year for the striving people of Huayou Company.

At the beginning of 2020, the sudden COVID-19 swept the world and brought great influence to people's life as well as the

Struggling Huayou

Struggling Huayou

Zhejiang Huayou Cobalt Company Limited was founded in 2002, is headquartered in Tongxiang Economic Development Zone, Jiaxing City, Zhejiang Province. Huayou Company is a high-tech enterprise dedicated to manufacturing lithium battery new energy materials, deep processing of cobalt new materials, and mining, processing and metallurgy of such non-ferrous metals as cobalt, copper and nickel. The main products of Huayou Cobalt Company (including holding joint ventures) are lithium battery cathode materials, precursors of lithium battery cathode materials, cobalt chemicals and the such metals as copper, nickel and so on, including cobalt tetroxide, cobalt sulfate, nickel sulfate, cobalt chloride, cobalt hydroxide, electrical copper, electrical cobalt and so on. The Company's products are mainly used in new energy electric vehicle industry, aviation industry, ceramic industry, chemical industry and so on. The Company was listed on Shanghai Stock Exchange in 2015 with stock code 603799. Zhejiang Huayou Holding Group Co., Ltd. is the largest shareholder of the Company, and GREAT MOUNTAIN ENTERPRISE PTE. LTD. is the second largest shareholder of the Company, these two shareholders are persons acting in concert.

After nearly 20 years of development and accumulation, the Company has completed the spatial layout of headquarter in Tongxiang, resource guarantee in Africa (mainly in Congo (DRC)) and Asia (mainly in Indonesia), manufacturing bases in Quzhou and Guangxi and market in the world, and has formed the vertical and integrated industrial structure that takes its own mineral resources as the guarantee, cobalt new materials and nickel products as the core, copper products as the auxiliary, integrates mining, beneficiation with metallurgy and deep processing of new materials and recycling of resources.

With the mission of creating value for the customers and leading industrial development, the Company is committed to the transformation route of controlling resources in upstream, expanding market in downstream and improving capacity in mid-stream. The Company adheres to the development strategy of new energy lithium battery materials and cobalt new materials, industrial integration, high-end products and international operation, and is committed to becoming a global leader in new energy lithium battery materials (this is the Company's vision).

Management Method

Organizational structure

Management system and membership

The Company maintains the corporate social responsibility management system, and supplements and supports it with such management systems as environmental management system, occupational health and safety management system, intellectual property management system, energy management system, quality management system, etc. Through the management system, it can deepen the systematic management concepts, promote the corporate social responsibility culture building of the Company. Through the cultivation of internal personnel, it has built a favorable implementation team. In 2020, Huahai New Energy Company has passed the IATF16949 certification.

SWOT ANALYSIS

For the sustainable development, the Company has its own advantages and disadvantages, the existing challenges and opportunities can be also found.

Strengths

1. With the integrated industry, it is convenient for effective and rapid resource mobilization;
2. Sufficient resources can be guaranteed.

Weaknesses

1. The energy consumption of production is large and the renewable resources available are limited;
2. For rapid development and growth, the ability of managers has not kept up.

Opportunities

1. The government and customers attach importance to carbon emission. The Company has attached importance to the issue of climate change long ago, taken the initiative to carry out product carbon emission and organized carbon emission research and data collection;
2. Sale of fuel vehicles will be prohibited gradually, and new energy vehicles will be increased gradually.

Threats

1. The ability of some suppliers in the upstream of the supply chain is insufficient, and the awareness of corporate social responsibility is weak, so it is difficult to achieve the Company's expectations in a short time;
2. The standard of corporate social responsibility of cobalt industry is not mature, but more satisfactory results are sought. The situation of the Company's supply chain is more complex than that of most of its peers, and it is difficult to meet the requirements of the industry in a short time.

With the simple SWOT analysis, it also makes the Company to more comprehensively understand itself in the aspect of sustainable development, and makes full preparations for overcoming potential threats. In 2020, under the complicated social responsibility standards of cobalt supply chain enterprises, the Company has clearly realized that this is an opportunity to make the whole industry benefit. All of this industrial chain shall understand each other and work together to formulate practical access standards as the entry point, avoid just pursuing high standards and strict requirements, it shall seek the requirements that can be achieved by most of participants in all links of the industry and then gradually improve such requirements, thus it can form effective and practical standards. In 2020, the Company also clearly recognizes the significant impact of climate change on human beings. How to understand its carbon footprint and how to understand the product life cycle will also be a great opportunity for the Company to contribute to the sustainable development of the world. In the face of rapid development, the Company will continue to be people-oriented, consider for the growth of employees and for the Company's sustainable operation, accelerate talent training, and provide more employment opportunities. The Company can not ignore its own advantages, will always guarantee the safety of resources, provide responsible raw materials, expand and strengthen its own industrial chain and make greater contribution to the local economy.

Morality and honesty

The Company has always adhered to the highest business ethics, established the Code of Business Morality and Behavior, provided moral guidance for all employees, and set up a series of supporting procedures and regulations to regulate the behaviors of employees, to avoid conflicts of interests, collusion inside and outside, bribery, corruption, privacy leakage, identity protection loss, hidden danger of information security, unfair competition and growth act of violating laws and regulations (such as conflict or terror, retaliation and so on). The Company has established a social responsibility office to interpret and educate the Company's business morality standards, and understand the basic situation of implementation through internal audit. In addition, the Company has established audit and supervision department, this department and the social responsibility office are directly subordinate to the Group CEO. This department is responsible for the overall management of internal audit and clean work supervision of the Group, supervises and inspects the Company's clean work building and anti-corruption management, the performance of duties and power exercising of important posts and leading cadres. In 2020, 12 reports and investigations have been handled, one investigation involved corruption and treatment has been completed. In the two audits on preventing conflicts of interest in 2020, no the Company's cadres directly or indirectly participated in the relevant suppliers, and no unqualified suppliers were found.

The Company clearly stipulates that all information of the report or complaint shall be strictly confidential, anonymous report or complaint is allowed, and such acts as disclosure, investigation obstruction and retaliation will be severely punished. After verification, the informer or the complainant will be rewarded according to the value of the infringement, and the personal information shall not be disclosed without the permission of the informer or the complainant.

Morality and honesty

Being a company is to be a person. The quality of the product is the quality of the company. We not only provide good products, but also make a commitment to whether the products are responsible or not.

In 2020, Quzhou Huayou Company and Huahai New Energy Company continued to promote the quality policy oriented by customer demand. On the basis of steadily advancing ISO9001 quality management system, they passed the IATF16949:2016 automobile industry quality management system certification issued by the third-party certification agency, strictly, systematically and comprehensively manage every link of product realization, and carry out all quality work solidly. For the key processes and key links affecting product quality, the key monitoring and testing are implemented to ensure that each link can be effectively monitored.

The Company follows the principles of sincerity

Stakeholder participation and substantive analysis

The Company always adheres to the principles of "equality, fairness and justice" to provide equal employment opportunities for personnel of different nationalities, nations, races, skin colors, genders, ages and educational backgrounds, and does not discriminate on the basis of religion, disability, marital status, sexual orientation, discriminatory medical examination, membership of trade union or political parties. The Company provides jobs for 8079 employees from 6 different countries, with different skin colors and from 19 different nations, respects and protects labor rights, strictly abides by international conventions, national and local laws and regulations, and establishes a standardized employment system.

The Company respects the right of employees to make their own choices. When the Company publishes recruitment advertisements, the practical and realistic principle are followed. In the process of employment, the Company does not force labor, nor charges any service charge or deposit, nor forces labor to do things against their will. The Company establishes labor relations with employees on the principles of freedom, equality, voluntariness and fairness, and signs labor contracts with employees by 100% within the legal time.

The Company only employs persons who meet the age requirements, strictly forbids child labor, does not use debt (including debt slaves), slavery, prison or contract labor, and firmly resists human trafficking. In 2020, the Company did not employ or wrongly recruit child labor, did not have forced labor or slaves. There have been no discriminatory incidents in the Company.

The Company arranges the work and rest of the employees according to the local regulations, and also provides considerable income and benefits for the employees to create conditions for them to work with dignity.

Cadre management system

In 2020, the Company launched the implementation project of the cadre management system, consolidated and improved the achievements of the first phase of the cadre management system project, and achieved the goals of "unified management language, implementation of management system, and innovative application of management mechanism". The project achievements cover five modules, namely the publicity and implementation of the first phase project achievements, switching of position and rank system, application and improvement of system implementation, talent inventory pilot mechanism and normalization mechanism of cadre self-criticizing. This has laid a solid foundation for the establishment of the cadre management system.

In 2020, the Company launched the first phase of Huayou strong team cultivation plan. 100 grass-root cadres, 50 middle-level cadres, 20 general managers of subsidiaries/large-scale construction projects, functional leaders and other high-level cadres have been selected to participate in the empowerment project.

Through the internal promotion mechanism, the Group selected 9 senior management and above cadres, 79 middle-level cadres and 181 grass-roots cadres, and transferred 269 management talents to all levels, so as to ensure talents for the Company's business development. All newly promoted cadres shall be included in the term management assessment.

Africa region Introduction to employee training

In 2020, through the further improvement and optimization of the training system, the African region draws up the implementation plan of employee training in different levels and categories. Combined with the domestic training resources, the African region adopts the forms of spot training, video lectures, case discussion, scene simulation, sand table drill, etc. to make the training methods more diversified and interesting. A total of 22 training sessions have been organized throughout the year, with 238 employees participating in the training. While effectively improving the comprehensive business ability of employees, it can further promote the teaching experience and ability of internal trainers, strengthen and activate the benign exchange of business experience and ability level within the Company.

Epidemic prevention knowledge training for local employees in Africa region

CDM safety operation procedure training

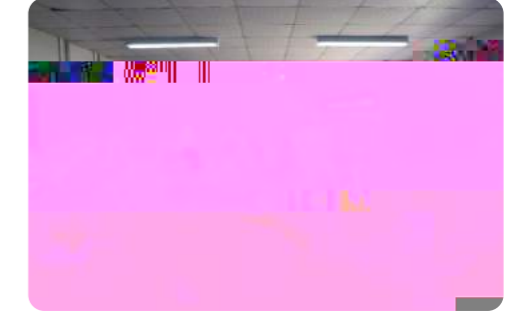

Introduction of local employees, providing a career development channel and learning platform

The Company pays attention to the localization building work, pays attention to the use and training of local employees in the Congo (DRC), and gives full play to the role of local management and key employees in the Company's operation and management. Combined with the characteristics of overseas human resources, the Company further improves such regulations as the Regulations on Local Employee Technical Post and Skill Rating (Trial) and the Post and Rank System for the Local Employees and system building, establishes a skill evaluation and post promotion system in line with local laws, provides channels for employee's career development and post promotion, and enables employees to focus more on their future development and work hard for it. At the same time, the Company recruits Chinese students to join. These measures further promote the process of localization of company management, and achieve good economic and social benefits

Cultivation of university/college students

In 2020, 14 new university/college students became employees in Africa region of Huayou. According to the university/college students training plan formulated by the Group's human resources department and combined with the management characteristics of Africa region, the Report Plan for University/College Students in Africa Region and the Follow-up Management Plan for University/College Students in Africa Region in Probation Period have been formulated. Each department formulates Plan for an

Colorful activities

Supreme Safety and Environmental Protection

Huayou Cobalt Company Limited deeply implements the concept of safety development, attaches great importance to the physical and mental health and safety of employees, always puts the life, health and safety of employees at the first place, adheres to life first, firmly establishes the concept that development can not be at the expense of human life and health, firmly adheres to the bottom line and red line of safety production, and actively creates a safe, harmonious and healthy working environment.

Improve the building of safety management system

In 2020, the Company pays close attention to the building of safety management system, revises and improves about 64 safety regulations, formulates such regulations as the Regulations on Accountability for Dereliction of Duty by Leaders for Safety and Environmental Protection and so on, standardizes the management processes of EHS inspection, hidden danger management, accident/incident investigation and handling, safety and environmental protection supervision and so on, strengthens the assessment of similar accidents, hidden dangers and dereliction of duty. The basic level safety and environmental protection building guidance service mechanism has been established. Each share-holding subsidiary actively carries out the certification of occupational health and safety management system and the standardization certification of safety production, builds the standardized management system, and continuously improves the safety management level of the Company.

Improve safety organization guarantee

The Company attaches great importance to the safety organization guarantee, establishes EHS committees at all levels from the Group to the industrial group and the subsidiary companies, and has set up safety management organizations, such as the Group safety and environmental protection department, regional safety and environmental protection department, industrial group safety and environmental protection department, subsidiary safety and environmental protection department and branch plant safety and environmental protection section and so on. The production workshops are equipped with full-time/part-time safety personnel, a safety management network covering all levels has been formed. On April 29, the Company successfully held the 2020 safety and environmental protection conference, discussed and deployed major safety and environmental management decisions, signed the objective responsibility promises. Each unit holds a regular safety meeting every month. In 2020, about 77 safety production committee meetings or safety special meetings at different levels were held to discuss major safety production management issues.

Strengthen safety awareness and safety skills

Improving employee safety awareness and safety skills level has always been the focus of the Company's safety management. The Company focuses on the "three basics building", and actively carries out safety training and education for all employees, and organizes various forms of safety activities, such as training lectures, practical exercises, post practice, skills competition, knowledge contest, team activities, etc. With the official public account, WeChat and QQ groups, publicity board, posters, banners and so on, safety knowledge is publicized extensively. During the "safety production month", the Company issued the Activity Plan for the Safety Production Month and Environmental Day in 2020, and all units actively responded to carry out various forms of theme publicity activities. In 2020, the total time of safety training is about 46722 hours, with about 18604 person times for training. The qualified rate of three-level safety education for new employees is 100%. About 3226 person times of safety training for contractors have been completed, and the qualified rate of special operation personnel with certificates at posts is 100%.

Safety production is the eternal theme of the enterprises. With the continuous progress of project of Huayue Company, safety production activities become more and more necessary. Since the beginning of 2020, the Company has paid close attention to the implementation of safety production activities. Through launching ceremony of safety production month activities, fire drill, regular safety pre-shift meeting, and launching various "epidemic" control measures, the Company has strengthened the safety ideological education of employees, made them bear safety in mind and enhanced their protection awareness.

Launching ceremony of carrying out safety production month activities

Holding fire drill activities

Improve the ability of risk management and control

In 2020, focusing on the building of dual-prevention mechanism, the Company actively carries out risk identification and safety control measures to effectively prevent and resolve the risk of major safety accidents. External consulting units were invited to implement and complete the project of "safety and environmental capability improvement of the Group risk identification and risk control". Special guidance and training were conducted for JSA and HAZOP of subsidiaries, workshops and teams. 215 JSAs and HAZOPs were completed, 404 improvement measures were put forward, and Huayou Company's advanced safety and environmental risk identification and control system has been built. Relying on the mechanism, the Company achieves self-optimization and continuous improvement, improves the level of risk identification and risk control, and cultivates a qualified and high-level risk identification and risk control team for Huayou.

Strengthen the investigation and treatment of hidden dangers

In 2020, the hidden danger investigation and treatment has become the main theme of the Company's safety management work. The Regulations on EHS Inspection and Hidden Danger Rectification has been revised to further improve the hidden danger investigation and treatment mechanism. Various units have carried out various forms of safety inspection. Wherein, the main directors of various industrial groups and holding subsidiaries have led the inspection team for 83 times to effectively prevent accidents.

Improve the emergency rescue system

The Company has established a perfect emergency rescue system. A full-time fire brigade has been set up in Quzhou Park, and the fire brigade is equipped with fire vehicles. The fire brigade has achieved good results in the mini-fire station competition of Smart Manufacturing New Town in Quzhou Agglomeration Area, and actively assisted the surrounding units in fighting fire accidents, and has the courage to assume corporate social responsibility. All units have formulated emergency rescue plans, special emergency plans and spot management plans and emergency treatment card for safety production accidents. Emergency rescue equipments (such as light and heavy chemical protective clothing, fire fighting clothing, air respirator, gas mask, etc.) are equipped on spot, and various forms of emergency rescue drills and training are carried out. In 2020, all units of the Company have carried out emergency drills and training for 159 times.

Improve the substantive safety level

Improving the substantive safety level has been the goal of the Company with great efforts; this is a powerful measure to reduce the probability of accidents. The Company implements substantive safety through the whole life cycle of equipment selection, design, manufacturing, installation, commissioning, use, maintenance and scrapping, selects non-toxic and low toxic raw materials to replace toxic materials, eliminates backward equipment and facilities, optimizes the process flow, and establishes a complete and intelligent safety and environmental protection platform. Through the optimized management of human, machine, material, law and environment, the substantive safety management level is continuously improved.

Improve the substantive safety level

Improving the substantive safety level has been the goal of the Company with great efforts; this is a powerful measure to reduce the probability of accidents. The Company implements substantive safety through the whole life cycle of equipment selection, design, manufacturing, installation, commissioning, use, maintenance and scrapping, selects non-toxic and low toxic raw materials to replace toxic materials, eliminates backward equipment and facilities, optimizes the process flow, and establishes a complete and intelligent safety and environmental protection platform. Through the optimized management of human, machine, material, law and environment, the substantive safety management level is continuously improved.

Strengthen occupational health management

In 2020, the Company actively performs the duty of occupational disease prevention and control, regularly carries out the detection of occupational hazard factors, equips personal labor protection articles, carries out occupational health training and publicity, popularizes health knowledge, and does a good job in physical examination of occupational hazard exposed posts. In 2020, the rate of occupational health physical examination is 100%, and no occupational disease occurs.

Epidemic prevention and control

Employees' physical and mental health and medical and health security has always been one of the continuous and key concerns of Huayou as a responsible enterprise. In the face of COVID-19 in 2020, the Company made overall plans for practical epidemic prevention policies, actively purchased and distributed epidemic prevention and control materials, and carried out self-protection knowledge training. The Company was responsible for setting up a factory policy in line with the interests of employees during the period when the Congo (CDR) employees stationed in the African area, ensured that the factory employees had three meals to eat, so as to ease the difficulties and demands of the Congo (CDR) employees. At the same time, the clinic of African company actively undertook the detection, treatment and curing of Chinese and Congo (CDR) employees and their families, carried out double antibody rapid detection for more than 1500 Chinese and Congo employees of the management headquarters and CDM company, further ensured the life, health and safety of employees.

At the site of Huayue project in Indonesia, the Company actively publicized the epidemic prevention knowledge, and took various measures to strengthen the epidemic prevention work and ensure the safety of all the employees at the site. In the critical period of epidemic prevention and control, the closed management has been started since March 29. As for ensuring the food, housing and travel of all employees or as for refining various prevention and control measures, the site strived to be "stable", so that the project construction can be carried out in an orderly manner.

Harmonious Coexistence of Industries

Starting from the building of its own corporate social responsibility management system, the Company has continuously improved the requirements for supply chain partners. From the transmission of basic documents (such as the basic supplier code of conduct), the filling of corporate social responsibility checklist to the spot audit of key and core suppliers, the Company is gradually improving the corporate social responsibility management system of supply chain, and contributes to the sustainable development of the industry.

As an important participant in the new energy lithium battery material industry, the Company adheres to the development concepts of innovation, harmony, green, open and sharing, attaches great importance to corporate social responsibility governance and sustainable development, and also attaches great importance to the due diligence management of cobalt supply chain.

The cobalt mining amount in Congo (DRC) of Africa is the largest in the world. Due to the backwardness of politics and economy, human rights risks and people's poverty concerned by the human are widespread in Congo (DRC). Whether the purity and sustainability of the Company's cobalt supply chain can be guaranteed or not is very important for the sustainable development of the whole industrial chain and winning the trust of customers.

Since 2016, Huayou has started to carry out the building of systematic cobalt supply chain due diligence management. Through the efforts in

The main risk assessment and mitigation situations are described as follows:

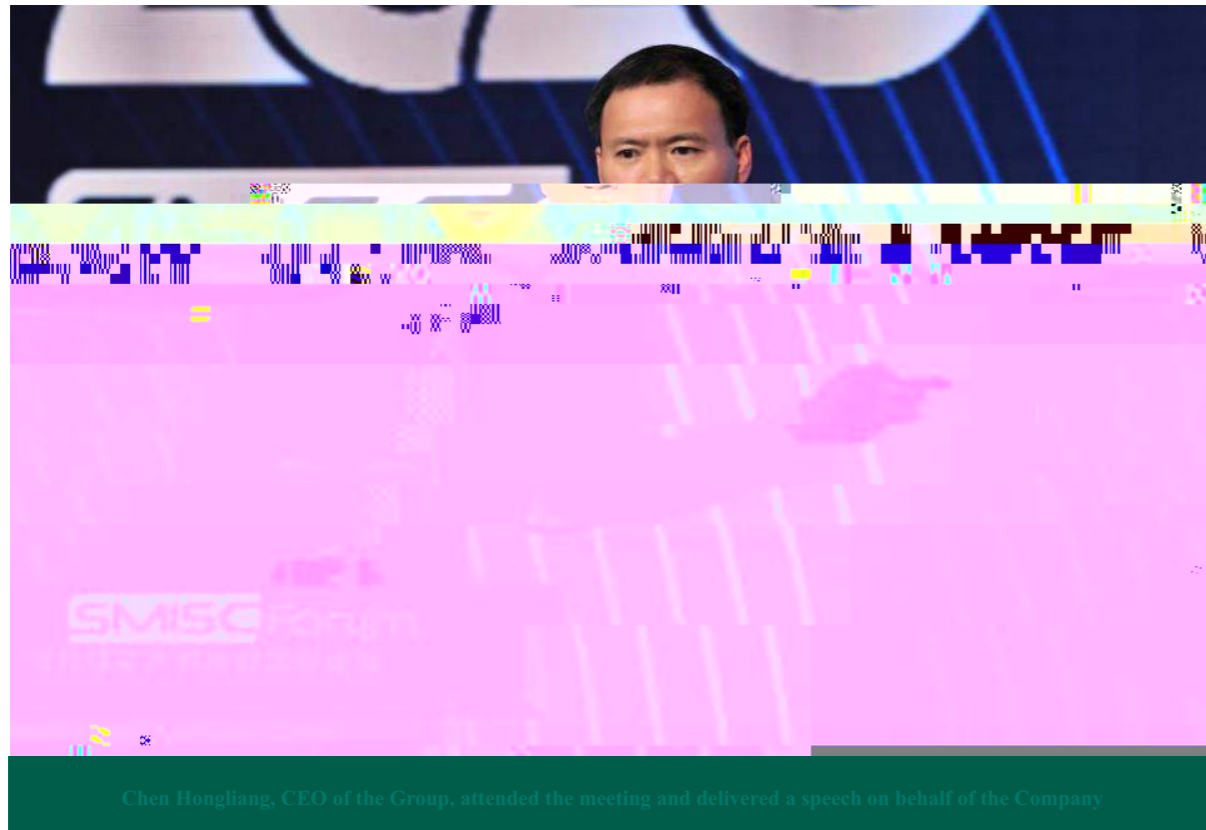

Since April 2020, the Company's Congo (DRC) smelter officially suspended the use of manually mined cobalt as the raw material. At the same time, the Company has established a strict procurement process for cobalt raw materials, and has implemented a series of measures to ensure the stability of cobalt raw material supply.

集团总裁陈红良代表公司出席会议并发表演讲

When the Company carries out due diligence management of cobalt supply chain, the Company also actively conducts communication and exchange with external units, downstream enterprises and industry organiz

Fine Neighborliness

In 2020, Huayou Cobalt adheres to the concept of focusing on social responsibility and enterprise develops simultaneously. The larger the enterprise is, the greater the social responsibility is. While taking the green development route, the Company focuses on the epidemic prevention and control work in the whole year, actively promotes donation of epidemic prevention materials, special contributions for epidemic resistance, and such public welfare activities as cooperation and aid, helping students in the autumn and helping others, and shows its social value, and makes its own contribution to the society. The following public welfare and charity activities are mainly carried out in 2020:

Donation of epidemic prevention supplies

After the outbreak of novel coronavirus pneumonia, Huayou took an active action to purchase supplies urgently, and tried its best to help the departments and units that needed help while meeting its own demand. The main contributions were mainly 437889.88 yuan and 30000 dollars by the employees for anti-epidemic. Materials (such as masks and protective clothing) valued in 800000 yuan were donated to the first-line anti-epidemic units, such as the Municipal People's Hospital and traffic police brigade.

Care for special groups

With its own development and growth, Huayou has always been caring for the social vulnerable groups. On January 23, 2020, employees from the labor union and social responsibility office of the Company were appointed to participate in the caring and condolence activities organized by Tongxiang Charity Federation and the Disabled Persons' Federation, and visited 23 convalescent personnel with special diseases in the leprosy hospital of Tongxiang City, offered them a condolence gift worth 6177 yuan.

Wuzhen Longxiang Nursing Home is a pair care unit of Huayou for many years. On January 24, 2020, the Company offered two condolences to the elderly there before the Spring Festival and the Mid-autumn Festival, offered them rich gift bags, pork and festival blessings. The total value of the two condolences was 17866 yuan.

Participate in the "cooperating with Party branch, creating a better life" care project

Under the unified launch of the superior Party committee and the government, the Party organization of the Company carried out the "care project" to express the Company's care for the poor families in the surrounding villages, and offered cash of 5000 yuan, necessities (rice and oil) valued in more than 500 yuan, so that these families could feel the care for the special social groups and from the healthy development of enterprises around them.

Carry out helping and condolence for employees with special difficulties

On the morning of January 25, Zhang Jianhong, Secretary of the General Party Branch and Chairman of the Labor Union of the Company, organized a condolence group with members of the labor union and the social responsibility office to express sympathy to the 10 employees who were in difficulties due to illness or accident. They listened to their family reports, encouraged them to work at ease, overcome difficulties, and rely on the development of the Company and the help of the labor union to get out of difficulties and strive for family development. After the meeting, they were given New Year's condolence cash and necessities.

For the employees' families with very great difficulties, for two of these families from other places, a consolation fund of 6800 yuan was given, and then a helping fund of 20000 yuan was offered from Huayou love fund for each family, so as to show Huayou's ideas of people-orientation and caring for employees.

Community co-building to promote public welfare

In terms of co-building activities with communities, for this year, Huayou continued to subsidize Baile community with a co-building fund of 20000 yuan for public welfare activities such as building the civilized city, care for the elderly living alone in the community, summer vacation education for children in the community, and organized Party member volunteers to participate in the patrol inspection of the responsible area of the road leader unit and the night safety inspection during the Internet Conference, so as to create a civilized and healthy environment and serve the Internet Conference. The total number of participants reached more than 50 person times.

Donate money to help students relying on the named charity fund

Huayou invested 10 million yuan in its name to establish a fund at Tongxiang Charity Association. 500000 yuan of fund interest is paid to the Charity Association every year, and is used for such projects as financial aid for poor university/college students' in autumn led by the Charity Association. On behalf of the Company, the Party, Labor Union and Youth League organizations of Huayou organized to participate in the annual autumn student financial aid activities with more than 10 large-scale enterprises in this City. The annual total student financial aid fund was more than 120000 yuan, making that more than 10 poor students were successfully enrolled by the universities/colleges and realized their dream.

Quzhou

On May 21, the Chairman of Quzhou Huayou Labor Union and his colleagues went to the new vegetable planting base in Shifan Village of Kaihua to hold the launching ceremony of the pairing assistance project and complete the contract. At the same time, on the eve of Children's Day, they got the information that the students in the Central Primary School of Cuntou Town were short of stationery and sporting goods, Huayou Cobalt donated more than 200 pieces of stationery and sporting goods for the Central Primary School of Cuntou Town, bringing care to the students and blessing of the Children's Day.

Since the formal implementation of this work in October 2019, the collective economic level of Shifan village, Cuntou Town, Kaihua County has been greatly improved. From October to December in 2019, 16264.5kg of vegetables and agricultural products were purchased, with a total amount of 74151 yuan; in 2020, 44349kg of vegetables and agricultural products were purchased, with a total amount of 181967 yuan. A total of 60613.5kg of vegetables and agricultural products were purchased in 15 months, with the amount of 256118 yuan. This work is still in progress, has the win-win situations have been achieved!

On July 6, the Company cooperated with Quzhou Green Industry Cluster Zone to carry out the activity of "caring and cool comfort for sanitation workers in midsummer", donated 580 cases of iced black tea to offer blessings to sanitation workers.

On December 17, Huayou Quzhou Industrial Park Party Committee was awarded the honorary titles of advanced collective against the novel crown pneumonia epidemic in Quzhou and advanced Party grassroots organization in Quzhou.

Overseas

Huayou is committed to effectively solving the problems experienced by the people in the communities of Luanda (LDA) and creating conditions to promote the Company's business performance in the local market. In order to improve the living and working conditions of the local people, the Company has carried out various projects, such as building roads, water supply for the communities, and providing medical services. The Company has also provided financial support for the local economy, including providing financial assistance for the local people to start their own businesses. The Company has also provided technical support and training for the local people, including providing training in agricultural production and control, and the use of machinery. The Company has also provided medical services, including providing medical supplies and training for the local people. The Company has also provided financial support for the local economy, including providing financial assistance for the local people to start their own businesses. The Company has also provided technical support and training for the local people, including providing training in agricultural production and control, and the use of machinery. The Company has also provided medical services, including providing medical supplies and training for the local people.
